

PITCH DECK

BOXITY

Go-Digital With Boxity

Introduction

WHO ARE WE?

PT Boxity Central Indonesia was founded in 2020 to be part of Indonesia's *go-digital* movement and to be an important part of the contribution of MSMEs in Indonesia's economic development, with a full focus on developing **ERP and SaaS applications** with the latest mobile and web models. We build a system that **integrates all the business processes** needed by MSME clients to run their business from planning, purchasing, inventory, sales, marketing, finance, human resources, and others.

Problem

More than 70% of Micro, Small, and Medium Enterprises (MSMEs) in Indonesia are still not Go-Digital.

Problem

This causes **many repetitive tasks, chaotic finances, difficulty reaching customer data, *contributing to national economic growth by developing MSME businesses.***

Complexity

Requires significant experience, training, and workarounds to use effectively.

Agility

Clunky, **slow**, and outdated

Security

All security handled internally including IT support, heightened on-premise security, and ***backup storage in another location***

Resources

Requires an internal IT team, space for storage, and ***significant time for training***

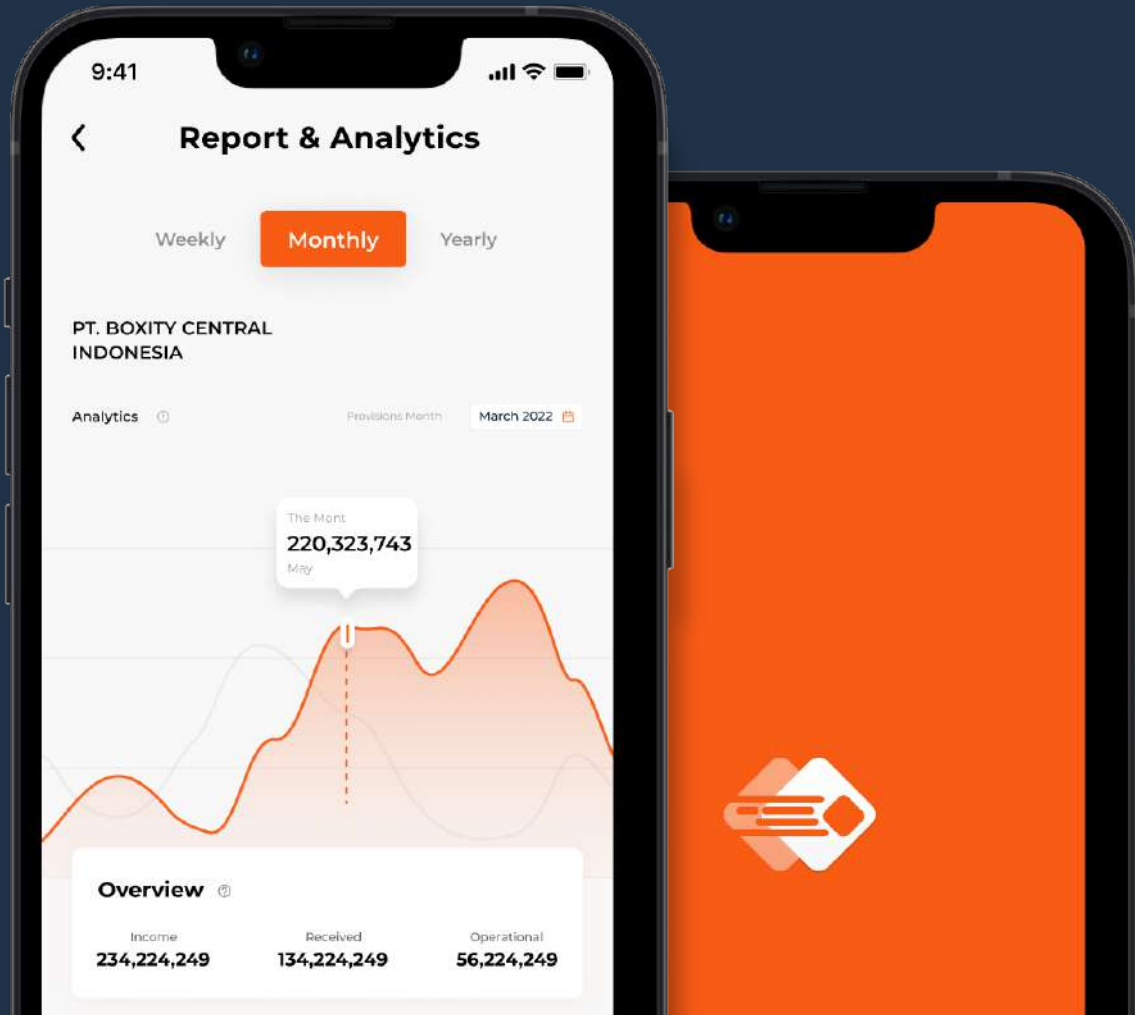

Risk

Increased risk of data loss and security breach due to **theft**, natural disaster, etc

Business should modernize legacy applications - [imaginnovation.net](https://www.imaginnovation.net)

Solutions

Builds ERP and SaaS in mobile and web applications that are designed to can used by both MSMEs and established companies.

BOXITY FOUNDED

Complexity

Designed to be **user-friendly** and to can used by both MSMEs and established companies.

Agility

Constantly **improving** and **evolving**

Resources

No additional resources required

Security

All security handled by a global business with specialized 24/7 monitoring

Risk

Less risk due to scale and specialization of the SaaS Help business

Competitive Analysis – from Feature

FEATURE	Boxity	Mekari	Phincon	AscendERP	Forca ERP
Customer Relationship Management (CRM)	✓	✓	✓	✓	✓
Human Resources Information System (HRIS)	✓	✓	✓	✓	✓
Warehouse management system (WMS)	✓		✓	✓	
Inventory Item Management	✓			✓	
Payroll Automated System	✓	✓		✓	
Hotel management system	✓			✓	
Finance & Accounting System	✓	✓		✓	
Easy Installation	✓	✓	✓		
iOS & Android Implementation	✓				
Cloud Based (Hybrid)	✓	✓			
User Integrated	✓	✓		✓	
Chat in-site system	✓	✓			

The beside chart demonstrates that our system strikes the balance between needs, features, and pricing scheme. Established players such as SAP may have higher time efficiency, however, it equates to much higher prices which young and growing companies may not be able to afford. Companies such as Forca ERP, Ascend ERP, Phincon, and Mekari may have the same price range as us, but they offer fewer modules. Moreover, we can provide a more efficient system installation, personalized environment, user-friendly design, mobile applications, and faster application implementation compared to the others. We've also tied a distinct set of competitive advantages into Boxity ERP, which will help us differentiate from these competitors and ascend to a market leadership position.

With the competitors being firmly entrenched in the competitive landscape, gaining market share amongst them will be no easy task. Nonetheless, the market is sizable and has great growth potential, therefore there is plenty of room for new entrants like us.
